Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1 and 7 are objected to because of the following informalities: As per claim 7, line 7, "mount" should be changed to –amount - -. On line 8, "the" second occurrence has been deleted. These changes are requested for clarity purposes. Appropriate correction is required.
2. Claim 1 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 7. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
3. The numbering of claims 7-10 is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). It appears that original claim 7 is pending in the application. Applicant has inappropriately added new claims 7-10 in the instant application.

Misnumbered claims 7-10 should be renumbered as respective claims 8-11.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1, 7-10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 U.S. Patent No. 6,332,132.

Although the conflicting claims are not identical, they are not patentably distinct from each other because each of claims 1 and 7 of the instant application are directed to a similar subject matter contained in claim 3 of the '132 patent. The only difference between each of claim 1 and 7 of the instant application and each of claims 1-3 of the '132 patent is a choice of an equation for matching the secondary investment to the primary investment vehicle to maintain a consistent level of reinvestment for performing the functions recited in claims 1 and 7.

6. Claims 8-10 recite necessary values for implementing/using the claimed invention.

7. Claims 1 and 7 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 3 of U.S. Patent No. 6,332,132. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1 and 7 of the instant application are directed to a similar subject matter contained in claim 3 of the '132 patent. It is noted that all the features of claims 1 and 7 are present in claim 3 of the '132 patent.
